THAW TO FACE JURY FOR MURDER

After Examination He Is Indicted for Murder.

ENTERS PLEA OF NOT GUILTY

The Defense, It Is Announced, Plans To Bring Out the Whole Story of White's Life and His Relations With Evelyn Nesbit.

New York, June 30.—Announcement that the defense will make "emotional insanity" the basis for its fight for the release of Harry K. Thaw in jail indicted for the murder of Stanford White set at rest the speculation on this point Friday. Justifiable homicide and the straight plea of insanity has been suggested as a line of defense, but Thaw himself made the insanity move impossible by his refusal to consider it, and by declining to allow alienists to question him.

It will not be claimed that the young man is insane now. Such a plea would mean a sentence to the asylum for criminal insane at Matteawan.

This new line means a trial, and if the plea of "emotional insanity" is justified, Thaw will be a free man.

The defense, it has also been announced, plans to bring out the whole story of White's life, of his relations with Evelyn Nesbit before she married Thaw, and of his subsequent actions, which the defense claims annoyed Mrs. Thaw and goaded Thaw to then do the shooting.

Mrs. Thaw will be a witness for her husband at the trial. She has declared her willingness to tell all she knows.

Thaw's action in telephoning Anthony Comstock aroused much interest. Mr. Comstock is quoted as saying that he is willing to appear for the defense, if called on, and give evidence as to White's conduct.

"About a year and a half ago," said Mr. Comstock, "Thaw came to me and complained about White's actions. After his marriage he came to me many times. He saw me again about two weeks before the shooting.

"As to Thaw's purpose in furnishing me with this evidence against White, I firmly believe it was prompted by the purest motives. I do not mean that Thaw thought White should be murdered, but that he should be taken out the community by legal process and put in prison. Thaw seemed to have an awful weight upon his heart when he visited me, but I was unable to fathom it, and he never volunteered any information on the subject.

"On the subject of this information and from that received in anonymous letters which corroborated Thaw's statements, I endeavoraed to get at the truth with a view of securing a conviction if possible, but when it came to preparing a case against White many difficulties confronted me. I had no substantial evidence to offer in a legal action which would make a conviction certain.

"My ill success is not bringing White to trial seemed to depress Mr. Thaw. As to whether I believe this depression caused Thaw to commit the murder I do not care to say."

Mrs. Thaw according to the prisoner's lawyers, had not been down town during the forenoon, but she was expected to call on her husband as well as his legal advisers some time later in the day. According to the Globe today, investigation has brought to light the fact that Stanford White, who was supposed to be wealthy, had been living beyond his income and was heavily in debt owing $100,000 to one young member of a prominent family and as much to other persons. In addition to this, the Globe says that White had drawn heavily from the architectural firm of which he was a member, that he had been notified that he could draw no more but upon whose signature it is not known that was put to the checks.

Thaw was brought before Judge Fitzgerald in general sessions this morning and was arraigned on the murder charge behind three other prisoners, one of whom was a negro charged with larceny. He was dressed in the same gray suit, which he wore yesterday, with a white shirt and collar and a black bow tie. His appearance was very little different from that of yesterday, except that he was slightly paler. He stood with his back to an open window at the north end of the room and chatted with the court officers while the prisoners were being arraigned. When his case was called, Thaw stepped briskly to the barrier, inside of which his counsel, Judge Olcott and T. J. McManus, were sitting at a table with Assistant Attorneys Garxan and Nott. When Clerk Tenny read the charge of murder in the first degree for the killing of Standford White, he asked Mr. Thaw what he had to say in regard to the indictment, and the prisoner answered distinctly "not guilty." His counsel immediately interposed an amendment to the plea, asking leave of the court to withdraw the plea any time up to next Tuesday. This was granted and a moment later the prisoner was taken away from the bar and re-entered the prison.

Mitchell In Kansas City.

Kansas City, June 30.—John Mitchell, president of the United Mine Workers, arrived here Friday moring from Indianapolis to confer with members of the Southwestern Coal operators' association over local differences in the Novinger, Missouri and some of the Arkansas districts. In the Novinger district the operators say that because of railroad conditions, they cannot operate under the Kansas City agreement with profit. In Arkansas the trouble is over the mine run law, passed by the recent legislature, the miners asserting that to carry out the Kansas City agreement, they must violate this statute.

Engineer Dead at Throttle.

Philadelphia, June 30.—The Colonial Express from Boston to Washington on the Pennsylvania railroad, arrived here Thursday night with George M. Maxwell, the engineer, dead at the throttle. When the train failed to slacken spee dat a suburb station, James Hackett, the fireman, called to Engineer Maxwell, who was at his post. Receiving no reply Hackett climbed over to the engineer's side of the cab and found Maxwell dead, his fingers rigid on the throttle Maxwell's death was due to heart failure. He was 45 years old.

Returns Home After Long Absence.

Fairmont, W. Va., June 29.—Aselus Kodi, a former resident of Mannington, an oil town 18 miles west of here, returned home after a long absence, and finding his wife living with another man, killed them both. Then he turned the revolver on himself, inflicting a probably fatal wound. During the time Kodi was out of the state, his wife had obtained a divorce and remarried. It is the supposition that he was not aware of this. The divorce was granted here during a recent session of court.

Breaks His Neck; Wife Falls Dead.

Cincinnati, June 30.—A special from Millersburg, O., says that while Jas. Patterson and his wife, both nearly 80 years of age, living near Bloomfield, were visiting their daughter, Mrs. Henry Work, west of here, the old man fell down the cellar steps, breaking his neck. He died instantly. His aged wife who witnessed the accident, fell over with heart disease and die dwithin a short time thereafter. Both will be buried in one grave.

Rev. Wm. Alexander Dead.

San Anselmo, Cal., June 30.—The Rev. William Alexander, D.D., LL.D., professor of church history in the Presbyterian Theological seminary, died at his home here Friday. He was born in Pennsylvania in 1831. He graduated from Jefferson college in 1853 and from Princeton Theological seminary in 1861.

Law Is Constitutional.

Nashville, Tenn., June 30.—The supreme court of Tennessee, in session at Jackson, declared the anti-anti-trading law constitutional. The case of a Memphis cotton seller, who was fined $50 in the lower court, was

RAILROAD ACCIDENT WAS A SERIOUS ONE

In Peculiar Collision Conductor Smoak and Brakeman Killed.

CONDUCTOR WAS CREMATED

After Having Been Terribly Mangled Between Cars, Body Was Burned to a Crisp—Severe Fire Loss, Aggregating Thousands of Dollars.

One of the most disastrous wrecks known in this section of the State occurred during Friday night on the Atlantic Coast Line, which not only cost a large property value, but the lives of Conductor C. C. Smoak, who was instantly killed and afterwards cremated, and a negro brakeman, name unknown.

The wreck occurred on a steep grade, about a quarter of a mile north of Martin, on the Florida Southern division.

Summary of the loss runs into thousands of dollars, to say nothing of the loss of human life.

From the best information obtainable, it appears that Extra No. 15, Engine 15, Conductor J. P. Philpot and Engineer Dave Haddock, was in the sidetrack at Martin upon orders to permit Extra No. 620, Engine 620, Conductor Smoak and Engineer Bramlett, pass.

In compliance with the orders, the extra did pass, but upon reaching the steep grade, the train stalled, as the engine failed to sufficiently respond. A signal was sent to No. 15 to assist No. 620, which was heavily loaded, over the hill, when Engineer Haddock detached his engine and proceeded to the scene. His engine was coupled to the caboose at the rear, when he reversed the same and went back to the foot of the hill for a good start, believing that he had the entire train with him; but the coupling-pin between the caboose and the main train had broken, which left the latter standing on the track.

After reaching the foot of the hill Engineer Haddock reversed his engine and put on full steam, colliding with the detached portion of No. 620 at a terrific force, telescoping the caboose and running the engine into a car loaded with naval stores, which became immediately ignited. Conductor Smoak and the negro brakeman were on the rear of the train, and both were instantly killed, the former being cremated to such an extent that only a few of his bones were found.

The property loss was a big one, as Engine No. 15, which is one of the locomotives performing through service on the passenger train between Jacksonville, Gainesville and St. Petersburg, and one of the finest in the service, was burned. Two carloads of naval stores, one carload of lumber and three carloads of watermelons were also burned.

Conductor Smoak was a young man, and resided at St. Petersburg. He had many friends from one end of the Atlantic Coast Line in Florida to another, all of whom will regret his untimely death.

While his engine was burned, Engineer Haddock and his fireman were uninjured.

County's First Death Sentence.

Gaffney, S. C., June 30.—Ed Rainey, upon whim the death sentence on a charge of rape was passed here Thursday is the first person to receive the death sentence in Cherokee county. He will hang September 14. A negro girl 13 years old died at Rainey's hands. An odd coincidence in this case was that this is the first death sentence pronounced in Cherokee, and the first death sentenced pronounced by Judge Prince, the trial judge. Rainey is a negro.

THE FOURTH OF JULY.

This Day Will be Observed by Many Places in Alachua County.

The Glorious Fourth—the event of the nation's birthday which gave us all the right of independence, is becoming more and more recognized in this country as the years roll by, with the result that even the hamlets show recognition of the flag by having their picnics and speakings and athlethic games in commemoration of the occasion.

On the approaching Fourth, which will arrive Wednesday if nothing prevents, not only Gainesville, but many of the leading villages and towns of the county will demonstrate their patriotism with appropriate exercises.

The news comes from Bell, Trenton, Jennings Lake and other places in the west, and Melrose, Townsend and other points in the east, that there will be big basket picnics, speaking, athletic sports and other attractions. The good people of these respective communities are very enthusiastic in anticipation, and in many instances most elaborate programs have been arranged.

County Superintendent Dr. J. L. Kelley has been invited to deliver the oration of the day at Trenton, while Col. Christopher Matheson is expected to fill the same function at Jennings Lake.

The public is cordially invited to attend all places of amusement, and also invited to bring along well-filled baskets.

Negro Hanged in Alabama.

Birmingham, Ala., June 30.—A special to the News from Linden Ala., says that Robert Richardson a negro, was hanged at that place at noon Friday. He protested his innocence on the scaffold. The crime for which Richardson was hanged was the murder of Dr. Frank L. Foscue, a prominent citizen of Demopolis, who was waylaid, shot to death and robbed one evening 18 months ago while out walking near his home. Robert Richardson, his brother, Albert Richardson and John Hopkins, all negroes, were arrested for the murder. Hopkins was given a life sentence; Albert Richardson hanged himself in jail while awaiting execution.

House Gets Busy.

Washington, June 29.—Appreciating that the first session of the fifty-ninth congress is rapidly nearing a close the house started on Thursday morning to clear the legislative dockets. Without debate the report on the bill defining the right of immunity of witnesses under the interstate commerce act was adopted; also the conference report relating to the loading of vessels between sunset and sunrise.

MRS. STRIKE THEN DISAPPEARS

For Sevarl Months Husband and Wife Have Been Separated—Strike Went to See His Wife to Effect a Reconciliation.

Atlanta, June 30.—After pleading in vain with his wife to forget the past and live with him again, Isadore Strike, a Russian Jew, Thursday afternoon drained a bottle of carbolic acid in her presence and Thursday night died at the Grady hospital, medical aid being unable to save his life.

For several months Strike and his wife have been separated from each other, finding it impossible to live a happy married life. He has been living out in the country, while she has been boarding at 99 Piedmont avenue.

Thursday afternoon, when every one was out except Mrs. Strike, who was sitting on the front porch, her husband came to the place. He tried to effect a reconciliation but she refused.

He then took a bottle of carbolic acid out of his pocket, and she snatched it away from him. He was prepared for this, and taking a second bottle, drank the contents.

Police officers were summoned, and Officers Lindsey and Holcomb responded. When they arrived the man was in agony, so the Grady hospital ambulance was called.

Mrs. Strike was frantic, and ran after the ambulance to the hospital. This was the last seen of her. Every possible aid was given to Strike at the hospital. At 8 o'clock Thursday night he died.

It was impossible to find Mrs. Strike and the people with whom she was boarding have not seen her since they went away and left her in the house. When they returned to the house they found it locked, just as they had left it.

Root Will Visit Chile.

Washington, June 29.—Secretary Root will accept the hospitality of Chile and make part of his trip along the west coast of South America in a Chilean warship. The United States cruiser Charleston, on which Secretary Root will sail for South America, is too large a craft to work its way along the inside passage from the Strait of Magellan to Valparaiso, Chile, and consequently the American secretary of state and his party will probably leave the Charleston at Sandy Point in the Straits of Magellan and go aboard a Chilean man of war which can work its way among the islands of the west coast, thus shortening the trip by several hundred miles, and enabling Mr. Root to remain longer in Chile.

Many Stricken With Heat.

Chicago, June 30.—Thursday was the hottest day of the year, the thermometer registering 93 degrees in the United States observatory, and touching 98 in the street. Four persons were fatally stricken and 14 others were hurried to hospitals or their homes in the hope of saving their lives.

BEAUTIFUL TRIBUTE TO THE DEPARTED

REFERS TO GOVERNOR CALL

Visited the Old Homestead, and Was Greatly Touched by Its Antique Beauty—Lake City and the University—Other Notes.

Tallahassee, June 27.—From Tampa comes the story that Albert Gilchrist of DeSoto is going abroad as soon as he can arrange his business affairs so they will not suffer in his absence. According to The Tampa Herald, when asked by a reporter about his gubernatorial aspirations he was as coy and uncertain as the proverbial maiden, and announced that he is preparing to follow the footsteps of the illustrious William Jennings Bryan around the world and promised to answer the question when he got back from belting the globe. Although, according to The Herald, Mr. Gilchrist was noncommittal on all matters save perhaps the prosperity of Tampa, there is absolutely no doubt that he now intends to be a candidate for Governor at the next election.

Chapter 5884 of the laws of Florida continues to agitate the people of Lake City. The situation has assumed a ludicrous phase lately. The city of Lake City recently was granted an injunction to restrain the State Boards of Education and Control from packing and removing the equipment of the University from Lake City to Gainesville. Notwithstanding the injunction the agents of the boards are busy packing the goods. Nathan Bryan, chairman of the Board of Control, is walking around with a chip on his shoulder daring the city of Lake City to knock it off by arresting him for violating the injunction so he can get the matter into the Supreme Court, and the habeas corpus route, it appears, is the only way to arrive there. The people of Lake City perhaps have some right to feel aggrieved—they certainly do feel badly used. I read the "bill of particulars" in their injunction suit, yesterday; it is as long as the moral law. In it the joint boards are charged with numerous sins of omission and commission. Gainesville's claim to superior moral and educational atmosphere seems to be about the hardest thing for them to swallow. Speaking of the means used by Gainesville to obtain the location of the University there, the bill alleges that they laid great stress on "pretended newspaper sentiments in the form of clamorings in such behalf, telegrams, letters, speeches and intercessions in various manner and form, including a puerile assertion of superior 'atmosphere' for and on the part of Gainesville, alleged not to be enjoyed by sister cities."

Mr. H. S. Elliott of the Department of Statistics of the office of the Commissioner of Agriculture, has just returned from Miami, where he went to make arrangements for the taking of the census for Dade county. Mr. Elliott appointed Mr. R. H. Seymour of Miami enumerator, and arranged for a deputy in each of the election precincts except Miami, where there will be four. The work of numbering the citizens of Dade will be speedily carried on, and the results will be given to the public within thirty-five days.

Secretary of State H. Clay Crawford is in receipt of a notification from President Roosevelt stating that the recent order for the abolishment of the office of Surveyor-General of Florida on June 30th, 1906, has been modified so as to make it effective June 30th, 1907. Mr. C. H. Parlin, who had been appointed to succeed General Weeks as Surveyor-General, will make his bond and take charge of the office. Governor Bloxham says that some years ago an order was issued for the abolishment of the office, but the State officials and members of Congress succeeded in having it revoked. The office of Surveyor-General of Florida approaches more nearly than any other office in the State the beatific condition of sinecure. In modern parlance it is a soft snap. The salary is, I am told, $2,000 a year, with clerks to perform all the work. All the Surveyor-General has to do is to sign the pay roll and draw his salary. I want a job like that myself, and envy Mr. Parlin his.

The existence of a case of small-pox in Tallahassee and one about a mile out of town, near the old State Fair grounds, was the cause of some alarm for a week. The State Board of Health was notified as soon as the cases developed, and sent Dr. Young, its special agent, to take them in charge. Both cases were negroes. The one in town was discharged Monday and the other is convalescent.

The exposures were all vaccinated, a strict quarantine was maintained, and no further cases are expected. I asked Dr. Young if the Board of Health anticipated an outbreak of yellow fever this year. His answer was very adroit. "The Board of Health never anticipates an epidemic, but keeps a close watch, and is always prepared to deal with one. The history of yellow fever epidemics shows that they generally repeat themselves."

The convict lease system came in for a severe scoring at the hands of the Good Roads Convention here last week. A letter from Hon. W. L. Palmer was read before the convention in which, among other things, he said: "The present convict lease system is a disgrace to a civilized people as now operated under some of the leases, and I suppose it is sufficiently bad under all the leases. I will not venture into the details of the objections to the system, and I do not propose that our report shall venture into that line, but that we do report the advantage and the good results that will be accomplished by placing the convicts of the State in constructing good roads in the State, I know in advance that such a suggestion will meet with positive and strong objection. It will run up against one of the most forceful influences in the State, but in my judgment the public mind of the people will be in deep sympathy with the suggestion, that the convicts be put to making good roads. No one denies that the good roads movement has grown to such proportions that it has become a demand from nearly every part of the State, but there will hardly be any change made in the convict lease system, as far as the State convicts are concerned for a long time. Unfortunately people charge to the system adopted and operated by the Board of State Institutions the scandalous and outrageous instances of treatment of COUNTY CONVICTS that have stirred the public minds. I think I assert a positive fact, easily verified, when I say that in every instance of inhumane treatment of convicts that has been made public, it has been a county, NOT a State convict, that has been the victim. It certainly is the policy and intention of the men who have charge of these unfortunate creatures to see that they are humanely treated; to this end every effort and care within their reach is directed."

I came upon it so suddenly that I was startled, hid in a tangle of the "forest primeval" right in the midst of the town. It is well named The Grove—the beautiful old home of Governor Call. The handsome old mansion site well back in the fifteen-acre tract of woodland, all that is left of a magnificent estate. It is directly at the end of Adams street that runs from the west side of the Capital south toward Bellair, and north to the doorsteps of the famous old home. Four enormous columns of great height support the portico that faces the south, in spite of the ravages of time, wears a genial, warming look of welcome, which makes it easy to imagine what it must have worn in the days of its glory and its famed hospitality.

Within a stone's throw from the gate workmen are beginning the building of the Governor's Mansion. It was always the dream and hope of the late owner of The Grove, Mrs. Ellen Call Long, to sell the place to the State to be converted into the official residence of the governor—a hope that was not realized. People prefer modern comforts and conveniences to historic associations, and if the Commission had chosen to convert the old place into the Governor's Mansion it would have been remodeled past recognition, and all its quaint, old-fashioned charm, would have been destroyed.

Away back from the house, in the depth of woodland, is the family burying ground. The place is weedy, wild and lonesome. A new mound of red clay marked by a simple marble slab with her name and the dates 1825 and 1905, marks the grave of the distinguished writer, Mrs. Ellen Call Long, who was the elder daughter of Governor Call, and the first white child born in Tallahassee; another daughter, a gentle white haired woman, Mrs. Brevard, lives here, lovingly cherished by her devoted family.

Here are the graves of Governor Call and his wife, and others of his race. It is perhaps fitting that the old warrior who struggled with the red men for the land should sleep his last long sleep close to nature's own heart. The spot is sweet and quiet. His grave has recently been marked by a simple white stone. Inscribed on it is—"Richard Keith Call. 1862."

Governor Call was one of the heroic figures of the early history of Florida. He was by birth a Virginian, the son of Major William Call. In his youth the family moved to Kentucky; at the age of seventeen he volunteered to go under General Jackson to fight the Creeks. He was with General Jackson through his brilliant military career, and served as his aid at the battle of New Orleans.

In 1835 he was appointed Governor. After serving four years he incurred President Van Buren's displeasure and was by him removed from office. In 1841 he was again appointed Governor, serving until 1844. He built the railroad from Tallahassee to St. Marks, which was then an important port. This was the first railroad built in Florida, and the third built in the United States. In this day of great enterprises, it is interesting to note that while a member of Congress, General Call tried to get a canal cut across the Isthmus of Panama to unite the waters of the Atlantic and the Gulf of Mexico.

As I stood beside the lonely grave and thought of all the glorious achievements, the brilliant mind, the fixed purpose and the strength of will that made achievement possible, and realized that the man that "once trod the ways of glory" was now but a handful of dust, I forced away the thought that involuntarily flashed into my mind—"the path of glory that leads but to the grave," and remembered that his name is carved in large letters in the history of our State, and will live as long as it lives. Then the butterfly that hovered for a moment over the headstone flitted into the sunshine, away and upward, was no longer emblematic of the fleeting glories of the earth, earthy, but of the glorious transformation from the darkness of death to the sunshine of immortality.

ACTIVE PREPARATION FOR GLORIOUS FOURTH

Various Committees are Busy Preparing for the Event.

GALA DAY FOR GAINESVILLE

Program Will Comprise Athletic Sports of All Kinds, Including Baseball. Grand Display of Paine's Fireworks at Night.

The Fourth of July celebration in Gainesville is bound to be a big success, if the efforts of the various committees appointed by the Board of Trade, and the glaring illuminated hangers published by and under direction of the Board, will count for anything.

It is reported that the committee on soliciting contributions to defray the expenses of a program for that glorious occasion are meeting with very flattering success. The committee on arranging the program have exercised excellent judgment, securing the best attractions possible, and the general committee on arrangements are working with them. The committee on advertising has done its work well, having distributed attractive advertising matter at all points within fifty miles of Gainesville, which should surely allure the people to the great attractions which have been provided for their enjoyment on that day.

The program as arranged, and which will be carried out, weather permitting, is one of the grandest Gainesville has ever had upon any former occasion of this kind. The morning will be devoted to athletic exercises of all kinds, including foot races, hoop races, hurdle races, chasing the greasy pig, bicycle races, with probably an auto race or two, and a championship baseball game at the park between the Central City team, colored, and some other champion team of the State, the selection not yet having been made. The manager of the Central City team, however, is in communication with several teams throughout the State, and "the pleasure is his."

In the afternoon there will be a continuation of the athletic exercises, to conclude with a championship baseball game between the Oak Halls and the Starke boys. Both teams are practicing daily, and the probability is that this will be the finest and most closely contested game to be seen here this season.

The evening program promises to prove of special interest, there being presented here something new to many of the people of this section. The exercises will begin at 8 o'clock, with a slack-wire performance by W. M. Pepper, formerly of Philadelphia but for the past few years a resident of Gainesville. Mr. Pepper it is said is an old slack-wire performer, and used to be capable of doing many fine "stunts" on the wire, "in his young days." It is also said that, realizing what is expected of him upon this occasion, he has pressed the clothes-line in his back yard into practice service, and has again become quite proficient. Mr. Pepper promises some startling feats in this exhibition.

In the evening at 8:30, on the campus of East Florida Seminary, there will be a gorgeous display of Paine's fireworks. The committee has purchased $228 worth of these famous productions, including shapes and designs of all kinds, which will give about forty-five minutes to one hours' elaborate display.

Low rates will be extended by the railroads, and a big crowd is expected here on that day. Special trains may also be run on all railroads within a radius of fifty miles.

E. D. Turner Now Cashier at Dutton's Bank—H. B. Arnold Assistant.

There has been some important promotions in the banking house of H. F. Dutton & Co., caused by the recent death of Dr. Benj. P. Richards, for many years the efficient and accommodating cashier of this institution.

E. D. Turner, formerly assistant cashier, has been promoted to the position of cashier, and Harold B. Arnold has been made assistant cashier.

Mr. Turner has been for about five years connected with this bank. He is a young man of sterling worth, of superior ability for the position to which he has been appointed, and his appointment will meet the approval of the patrons of the bank without a dissenting voice. The bank, as well as Mr. Turner, is to be congratulated. Always courteous and accommodating, he has made many friends for himself and the institution since his connection there.

While Mr. Arnold has not been connected with the bank but a few months, he has had large experience in this direction elsewhere. He came here as a member of the clerical force of the United States land office, which he held with ability for some time, when he finally accepted a more lucrative position with Dutton & Co. That he will make an efficient official there is no doubt.

A DELIGHTFUL AFFAIR.

Miss Voyle Entertains in Honor of Her Jacksonville Friends.

One of the most delightful entertainments given in Gainesville this season was the reception tendered by Miss Mabel Voyle, West Masonic St., Wednesday evening, complimentary to her guests, the Misses Ruby Powell and Esther Gerrish, of Jacksonville.

Notwithstanding the threatening weather, about twenty-five couples gathered to pay compliment to these charming young ladies, and the evening passed off in a most enjoyable manner.

The occasion was spent in music, vocal and instrumental, and games, incidentally delicious refreshments of ice cream and cake being served.

Miss Voyle, as usual, proved herself a clever and entertaining hostess, while her guests were equal to the occasion, making many friends among the young society set here.

Miss Bettie Miller assisted Miss Voyle in receiving.

USED INDECENT LANGUAGE.

For That Reason Man and Woman Sentenced to Thirty Days in Gang.

Because they insisted upon using language unbecoming the morality and dignity of a gentleman and lady, Will Ruffon and a colored woman who bears the angelic cognomen of Angelia, are now doing a thirty-day turn each in the convict camp of the Buttgenbach Company, near Dunnellon.

The man and woman were arrested and arraigned before Justice E. F. Zetrouer at Rochelle, when they were adjudged guilty. After giving them a severe lecture and some sound advice for their future guidance, he sentenced them to thirty days each in the mines.

Deputy Sheriff J. H. Granger has taken the prisoners to Dunnellon, where he turned them over to the guard at Buttgenbach's mines.

Help is Offered to Worthy Young People.

Smith-Pepper.

A pretty home wedding was solemnized Wednesday evening, when E. H. Smith of Tioga and Miss Harriet Pepper were united in the holy bonds of matrimony, the bride's father, Rev. E. I. D. Pepper, officiating.

The affair was a quiet one, only a few intimate friends and the family of the bride being present.

Mr. Smith is a well known young man of Tioga, holding a responsible position with the Cummer Lumber Company. Miss Pepper is a general favorite here, and her friends will give her up with reluctance.

The happy couple have gone on a short bridal tour, after which they will return to Gainesville.

Friends extend congratulations.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

The Republicans insist that the Canal Commission shall do all its trading at the "company store."

The high moral standing of Gainesville is due to the fact that it has been permeated by Christian influence and education, such as have radiated from the various church organizations of the city.

A SALE OF EVERGLADES LANDS.

The Times-Union of last Sunday contains the following pertinent article relating to the drainage of the Everglades:

"Governor Broward claims that the land in the Everglades when drained will be worth between fifty and one hundred dollars per acre. Leaving out of consideration the State and county taxes, an effort has been made to collect a tax of five cents per acre on these lands for drainage purposes. This certainly should indicate a value of five dollars per acre in their present condition.

Recently the Internal Improvement Board of which Governor Broward is the most influential, if not the controlling member, has sold nominally to one man 59,060 acres of these lands in Monroe county for 43 2-3 cents per acre. The amount of money the State is to receive through a private sale is $25,763 for land that according to Governor Broward's lowest estimate would be worth $2,959,000 when drained. This land was sold for a little less than one cent on the dollar of what the men who sold it say it will be worth after drainage.

"If the Everglades lands are to become so valuable, why does the Internal Improvement Board sell them now at such a price? If they were to be sold at all why were they sold on the quiet?' Why was not an effort made to secure a better price by having open competition for their purchase? Why was one individual thus favored? Or was it one individual or was he merely a name under which land could be conveyed to others who wished to get it without being known in the matter? If the land was really bought by other parties than the one named who were they?

"All these inquiries are naturally suggested by a private sale of public lands for an inadequate consideration. The public has a right to full information and it should be forthcoming."

LEARN THE HABIT OF SAVING.

To inculcate a habit of saving it is absolutely necessary that a few dollars—a hundred, more or less—should be laid aside as a nest egg. It is this amount—the first hundred—and the habit of saving acquired in accumulating it that have more to do in giving the young man a financial and business start in the world than any $500 which he accumulates afterward. There are scores of young men, hardworking and industrious, who have no sense of ownership and possess no proprietary interest simply because they fail to make the start. In many cases this hand-to-mouth method of earning and spending is due to young men not having others dependent upon them. While a young woman runs considerable risk in marrying chumps of this type, she often furnishes the necessary incentive to saving.

The good housewife gets the meal, dresses the children, sweeps, bakes, mends, does the washing, and when the shades of evening gather she finds that human possibilities and endurance have reached the limit. The banker, after the morning meal, goes to the counting room, delves in facts and figures all day, and when he goes home it is often with a feeling akin to nervous prostration. The doctor, dentist, dry goods man, grocer, newspaper man, implement dealer, druggist—all these, after displaying a liberal amount of Roosevelt strenuosity all day and many times until long after the bats have had their frolic and gone to roost—well, they feel as though life, at the very best, is made up of toil.

The thought that "no one cares and no one knows" blights many a bud of promise. Be it the young artist at the easel, the workman at his bench, the boy at his mathematical problems or your little girl at the piano, give what praise you can.

The "big head" is a popular way of expressing a common and very frequent ailment. It arises from various sources, but the real foundation is a lack of sense. A little money develops it in some people; a few good clothes gives it to others; a little office, where a chance is to given to exercise a little authority, is often the cause of it, while others get it having a little better job than their associates. The truth is no sensible person gets the "big head." The ones who become stuck-up and stiff-necked from sources of any kind, are weak in the intellectual caliber.

Several years before Mr. Lincoln received his nomination for the Presidency he received a letter of inquiry from the East concerning the financial standing of a gentleman in his town, and his reply was: "Dear Sir: I know Mr. H—— and his standing. He has a wife and baby that I think a fair valuation of might be fifty thousand dollars. There is a table in his office that I believe to be worth a dollar and a half, and there are three chairs worth abont a dollar, and there is a rat hole in the corner that would bear looking into."

Managers of amusement resorts at Coney Island assert that the attendance Sunday broke all previous records. More conservative people estimate that not less than 300,000 persons visited the island. The Brooklyn Rapid Transit Co. operated express trains on a five-minute schedule and these and the trolley cars were packed, some of the cars carrying passengers on their roofs. There were no accidents and practically no trouble for the police in preserving order.

It would seem to us that Lake City would be satisfied at last and grant that the majority of the people of Florida, when they voted for Gainesville as the place for the State University, were reasonably sane in mind and body, and stop the continual method of trying to thwart the plans of the Board of Control by one means and another.—Eustis Lake Region.

If, perchance, a copy of The Sun should fall into the hands of any who are in search of a new location—a place where church, school and social advantages are given emphasis, and where you can live out your allotted number of years without fear of pestilence or famine, we say, like one of old, "Come thou with us and we will do thee good."

There are many striking examples of the value of good roads. The case was presented before a jury, and after hearing the testimony the attorneys, Cols. Robt. E. Davis for the State and B. A. Thrasher for the defense, agreed to submit no argument.

The jury retired, and in a short while returned a verdict in favor of the defendent.

GAINESVILLE SAYS GIVE OCALA ALL

Wants Brick City to Get Original Appropriation

BY THE UNITED STATES SENATE

Judge Syd. L. Carter Sends Telegram to Senator Taliaferro, in Behalf of Ocala, Asking Him to Use Influence in Restoring the Amount.

The people of Gainesville were very much elated over the fact that Ocala, our sister city, had been favored by the recommendation of an appropriation of $85,000 for the public building in Ocala, and have rejoiced with the citizens of the progressive Brick City over their success.

But when the information came Friday that the Senate had reduced this appropriation they were very much in sympathy, and at the suggestion of a number of prominent citizens of the city, Judge Syd L. Carter sent the following telegram to Florida's junior Senator:

"Gainesville, Fla., June 29

"To Senator J. P. Taliaferro, Washington, D. C.:

"The people of Gainesville join me in hoping that Ocala's public building appropriation will be restored to the original amount in conference, and we ask you to endeavor to accomplish it.

"SYD L. CARTER"

The people of Gainesville and Ocala have always been on the most friendly terms, and our citizens are desirous of seeing the Brick City get what is justly due her, which is not considered too much for the class and dimension of building which will be required.

LETTER FROM MRS. SMITH.

She is Among Her Old Michigan Friends but Expects to Return.

A letter received by a friend in this city of Mrs. Elizabeth Ashley Smith, sister of the lamented Winn W. Ashley, associate editor of The Sun, who died at his post of duty, bears the information that she is now in Charlotte, Mich., where she proposes to remain with her old friends for a few weeks.

Mrs. Smith is well known, and has many warm and sincere friends here, where she has visited several winters, and where, with her brother, she was keeping house and was happily located at the time of his sad and sudden death.

Mrs. Smith speaks very kindly of her friends here, and wishes to be remembered to them all. "They have been so good and kind to me," she added, "that I shall never forget them, and shall always love them for their goodness. I expect to come among them again early in the fall, about October."

Mrs. Smith concludes her letter by stating that she receives The Sun regularly, and that it is quite a comfort to her, besides giving her all the news.

Friends hope to have her here at the time she anticipates coming, and it goes without saying that she will receive a sincere welcome.

Modest Claims Often Carry the Most Conviction.

When Maxim, the famous gun inventor, placed his gun before a committee of judges, he stated its carrying power to be much below what he felt sure the gun would accomplish. The result of the trial was therefore a great surprise, instead of disappointment. It is the same with the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy. They do not publicly boast of all this remedy will accomplish, but prefer to let the users make the statements. What they do claim is that it will positively cure diarrhoea, dysentery, pains in the stomach and bowels and has never been known to fail. For sale by all druggists.

The men were released under bond of $10 each for their appearance in mayor's court Monday morning.

Saved His Comrade's Life.

Thomas, and the following gentlemen are requested to act as pall-bearers, and are also requested to meet, at the home, North Franklin street, at 2:30 o'clock: C. S. WALTER LIVIE IS RIGHT MAN

Burglar is Positively Identified by Col. W. H. Palmer

ALSO IDENTIFIED HIS WATCH

Nogro Entered Homes of Mrs. Annie Brown and Col. Palmer in Broad Daylight Sunday, Stealing Valuable Jewelry—Arrested in Palatka.

Walter Livie, the negro who was arrested by Chief of Police Hagan at Palatka Wednesday, proves to be the man who committed burglary in the homes of Mrs. Annie Brown and Col. W. H. Palmer in this city Sunday.

Sheriff Fennell, who was notified by wire of the arrest, went to Palatka Thursday and returned with his prisoner. He was taken before Col. Palmer, who positively identified the man as the person who did the work, as he had met the man Sunday shortly after dinner, engaged him to do some work about his home on the following day, and pointed out the location of his home. The negro did not show up Monday morning, after the robbery of Sunday afternoon. Col. Palmer also identified the watch which was stolen from his house, and which was pawned, together with a watch taken from Mrs. Brown, in Palatka.

Livie was committed to jail in Judge Mason's court, in default of bond, to await the action of the grand jury at the next term of the circuit court, which will be held in the fall.

EVINSTON AN EASY THING.

Oak Halls Walked Away With Them, and Played Rabbit in the Field.

Those who attended the baseball game at the park Thursday afternoon between the Oak Hall and Evinston teams expected to witness something exciting, but the contest was so one-sided that before the game was half over all interest was lost, and the spectators began munching peanuts, drinking lemonade and talking over the current events of the day, some even taking out their papers and glancing over the news. The Oak Halls found an easy thing, but the visitors did the best they could under the circumstances.

The score was 11 to 3 in favor of Gainesville.

REPORTED LYNCHING IN COLUMBIA COUNTY

Lady Writes to Her Father Here Description of Tragedy.

NEGRO WAS SHOT TO DEATH.

A Note of Warning Was Left Tacked Above His Head—"We Will Protect Our Wives and Daughters," It Said. First Intimation of Tragedy.

Information has just reached this this city through private correspondence of a lynching which occured in Columbia county, between Fort White and Mikesville, two or three days recently, and which as far as can be learned, no public account has been given. This information came through a lady residing within a short distance of where the fatal tragedy occured, to her father in this city, and must be authentic, or she would never have revealed such a story. She declared to her father that she heard a fusilade of shots, and an hour afterwards some person rode by her home and told her that George Harris, a negro who had been arrested by Officer Percy Johnson upon a charge of criminal assault upon a twelveve-year-old white girl, had been tied to a tree and shot to death by an unknown posse. The lynching occurred in a lonely place on the road, this lady's home being the nearest to the scene, nearly a half-mile.

The mob, whoever they might have been, seemed determined. It is said that Officer Johnson, after arresting the prisoner, was on his way to the Fort White jail, when the mob intercepted him and took the man away. After filling his body with shot, they left a card tacked to the tree to which he had been tied, which read:

"We, the citizens of Columbia county, intend to protect our wives and daughters."

Thus ended the life of another brute who attempted to rob the innocent of their virtue.

CROPS HAVE BEEN GOOD.

Farmers and Truckers of Micanopy District Have Done Well.

Captain J. W. Carter of Micanopy, who was among the visitors to this city Thursday, brought cheerful news in regard to the condition of the people of his section, and more especially the farmer and the fellow who raises vegetables and melons.

Captain Carter, who is himself a "sort-of-a-farmer," as he expresses it, states that, notwithstanding there has been considerable rain throughout the Micanopy and Evinston section, the crops seemed to thrive, and the farmers and truckers as a rule have harvested well.

The rains apparently did little damage, and the products of the truck farm seemed especially fine, even under these slight adverse conditions of wet and inclement weather. Cabbage, peas, beans, cucumbers and other products of the truck farm brought fine prices in the markets as a rule, with the result that the trucker has a fat pocketbook and a pantry full of good things to eat. He is also not shy on good clothes.

The staple farmer—"the old standby"—has also been blessed with an abundant yield, and he, too, is happy and contented.

If anybody on earth deserves success it is the farmer, and if anybody specially deserves it it is the farmers in and about the Micanopy section, who are among the most industrious in the State.

We love to see the farmer prosper, because that means prosperity and good cheer for everybody.

MALPHURS' NEW AUTO.

Has Purchased a Runabout, and Creates Considerable Interest.

One of the surprises of the day Thursday was the appearance of a spanking new automobile of the runabout type on the streets.

Gainesville has not yet reached that point where the sight of a new auto does not create curiosity and excitement, although there are several machines here, and a new one bobs up serenely every few days. Upon investigation it was discovered that J. H. Malphurs, the grocer, was the owner of the machine, which is one of the handsomest runabouts in the city. It is an Oldsmobile, a thing of beauty, and the owner has a right to feel proud of it.

It is understood that J. R. Fowler, who already has a handsome $1,000 Cadillac, has placed an order for another $1,500 machine, which is expected in a few days. Mr. Fowler has established a public auto service, which is appreciated by the people of Gainesville.

PICNIC AT FAIRBANKS.

Everybody in Alachua County Invited to That Place on July 6.

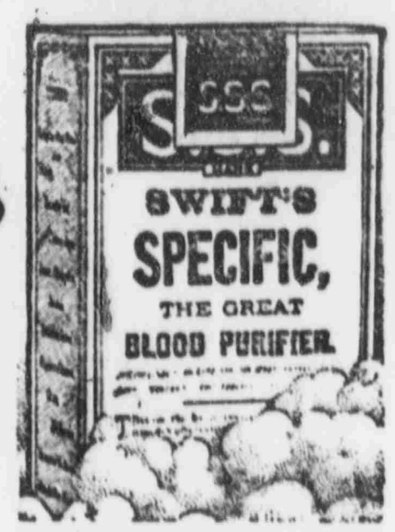
The good people of Fairbanks are a progressive set. They do not propose to be outdone by any other section of the county, in the line of amusement or anything else.

But they are also an unselfish lot, and, realizing that there would be a picnic or gathering in almost every hamlet throughout the county, they have decided to postpone their grand picnic until July 6, in order that their friends from everywhere could come and enjoy their hospitality.

W. H. Waits, one of the patriotic and progressive citizens of Fairbanks, writes The Sun, with a request to announce "the Fourth of July picnic" at that place on July 6, in order that everyone who desires may attend.

There will be a big time, and the day will not soon be forgotten. Let everybody come and bring well-filled baskets.

THE KING OF BLOOD PURIFIERS



No other remedy has given such perfect satisfaction as a blood purifier and tonic or is so reliable in the cure of blood diseases of every character as S. S. S. It is known as "The King of Blood Purifiers," and the secret of its success and its right to this title is because ***"IT CURES DISEASE."*** It is an honest medicine, made entirely of purifying, healing roots, herbs and barks, which are acknowledged to be specifics for diseases arising from an impure or poisoned condition of the blood and possessing tonic properties that act gently and admirably in the up-building of a run-down, weakened or disordered condition of the system.

One of the greatest points in favor of S. S. S. is that it is the only blood remedy on the market which does not contain a mineral ingredient of some kind to derange or damage the system. It is the one medicine that can be taken with absolute safety by the youngest child or the oldest member of the family, and persons who have allowed their systems to get in such condition that most medicines are repulsive to the stomach will find that S. S. S., while thorough, is gentle and pleasant in its action, and has none of the nauseating effects of the different mineral mixtures and concoctions offered as blood purifiers.

As every part of the body is dependent on the blood for nourishment and strength, it is necessary that this vital fluid be kept free from germs and poisons. So long as it remains uncontaminated we are fortified against disease, and health is assured; but any impurity, humor or poison acts injuriously on the system and affects the general health. Pustular eruptions, pimples, rashes and the different skin affections show that the blood is in a feverish and diseased condition as a result of too much acid or the presence of some irritating humor. Sores and Ulcers are the result of morbid, unhealthy matter in the blood, and Rheumatism, Catarrh, Scrofula, Contagious Blood Poison etc., are all deep-seated blood disorders that continue to grow worse as long as the poison remains.

Gentlemen:—S. S. S. is used as a family medicine in our home. I myself have taken and always found it what it is claimed to be. It thoroughly cleanses the system of impurities, increases the appetite, improves the digestion, and builds up the general health. I have given it to my children with fine results. It promptly restores the appetite and clears the skin of all eruptions. It is a very fine blood tonic and has my hearty endorsement.
124 S. 9th St., Lebanon, Pa. P. H. THOMPSON.

But all blood diseases are not acquired; some persons are born with an hereditary taint in the blood and we see this great affliction manifested in many ways. The skin has a waxy, pallid appearance, the eyes are often weak, glands of the neck enlarged, and as the taint has been in the blood since birth the entire health is usually affected.

In all blood troubles S. S. S. has proved itself a perfect remedy and has well earned the title of "KING OF BLOOD PURIFIERS." It goes down into the circulation and removes all poisons, humors, waste or foreign matter, and makes this stream of life pure and health-sustaining. Nothing reaches inherited blood troubles like S. S. S.; it removes every particle of the taint, purifies and strengthens the weak, deteriorated blood, and supplies it with the healthful properties it needs and establishes the foundation for good health. As a tonic this great medicine has no equal, and it will be found especially bracing to weak, anaemic persons. Rheumatism, Catarrh, Sores and Ulcers, Skin Diseases, Scrofula, Contagious Blood Poison and all other blood troubles are cured permanently by S. S. S., and so thorough is the cleansing of the blood that no trace of the disease is left to break out in future years or to be transmitted to offspring. If you are in need of a blood purifier get "THE KING" of them all, S. S. S.—and good results are assured. Book on the blood and any medical advice desired furnished without charge to all who write.

Friends of the family regret very much to lose them.

Among the prominent country people who came to Gainesville yesterday was Chas. McKinney of Graham. Mr. McKinney is a practical farmer, which means a successful farmer. He does not have to come to town to purchase his butter or meat and other products which belong to the farm, but makes them at home—and the best they are, too. There are a number of this class in the county, but not near so many as there should be, considering the advantages the farmers of this county have. As a farmer, as well as in everything else he undertakes, Mr. McKinney is a success.
